Lab Hand-in Template (Project Setup and Git Conflict)

- Please duplicate this shared file: **File → Make a copy**
- Please name the file: ***teamX_gitconflict.pdf*** (One person in the team submits PDF)
- To properly create clickable hyperlinks: **Select Text→ Insert → Link (Control-K) → Paste Link→Apply**

1. Your project's GitHub URL

- Provide your Project's GitHub URL (clickable, working hyperlink)
- List team members and GitHub usernames (in the box below)
- Also, update the Team Formation Google sheet (see Lab notion for link)

https://github.com/dnlsvdr/1800_202430_BBY06

2. Git Conflict

- Conflicts should have resulted because every team member tried to edit the same file.
- Provide ONE screen-capture that shows ONE example of code conflict in a merged file (showing the <<<<<<< and >>>>>> and ======= markers) BEFORE you fix/edit.
- Provide ONE screen capture that shows this code file AFTER conflicts have been fixed.

Paste screen capture with helpful annotations (BEFORE, with conflict markers)

Paste screen capture with helpful annotations (AFTER, with no conflict markers)

3. Resulting README.md
● Provide a screen capture of your GitHub showing Readme.md AFTER collaboration.
● Each team member should have a personal line of introduction in this file.

Contributors

● **Daniel** - BCIT CST Student with a passion for creating user-friendly applications. Fun fact: Loves solving Rubik's Cubes in under a minute.
● **Marvin** - BCIT CST Student, Meow.
● **Baltaj** - BCIT CST Student with a passion to learn how to code.

4. Resulting Git Logs
● When everyone's part is done, we can check the commit history.
● Provide a screen capture of the git log showing EACH team member's commits.
● For example: "***git log --author=Elmo***"
   ○ If you're unsure of your Git name, use "***git config --global --list***" to find it and then apply it in the "***git log***" command above.
