## Team Assignment:  Team Formation and Brainstorming for TeamXX

---

- Please duplicate this shared  file:  **File → Make a copy**
- Please name the file: ***teamX_survey.pdf***  (One person in the team submits PDF)
- To properly create clickable hyperlinks:  **Insert → Link (Control-K) → Paste Link→Apply**

---

**1.  Some basic information about your team and project**

| *Team Number: BBY06* | *Name of Participating Members: Daniel Saavedra, Marvin Yeung, Baltaj Parmar* |
|---|---|
| *FigJam link (clickable, working link):* <br><br> *https://www.figma.com/board/OPMAteZejMyoHjpmcqw858/1800-202410-BBY06?node-id=0-1&t=WUOJyggT6mnMnu8g-1* | |

**2.  Working Agreement (Team Charter)**
There are 6 categories in the template.  This is an Agreement that will evolve over time.

Pick 2 of the categories to show here.

**Communication**

- How can feedback help the project and the team? What is the best way to give each other feedback? How do you want feedback?
- Communicate just in class? Discord?

We will be communicating in our classes on when to meet after. We are also in a discord group chat where we can discuss the project.

Baltaj Parmar

Feedback can provide guidance on how to improve any area in doing this project.

Daniel Saavedra

It will also encourage collaboration and teamwork as everyone will share their ideas and have contributions.

Daniel Saavedra

We will communicate with discord so we can pin important stuffs, have records for all the changes and stuffs.

Marvin Yeung

**Expectations of all group members and code of behavior**

"We expect perfection" Hmmmm…..
"Do what you say you will do, and tell us if you don't" Maybe…
Write what you need. It's your project. What are your expectations for people in the project? What kinds of behaviors would help you to know things are going well?

Don't be shy to ask. If you need help or confuse on something let us know.

Encourage giving feedback like "I noticed this part has a problem…"

Give an update on your task like if you're done.

Daniel Saavedra

We expect perfection.

Everyone on the same track, knowing what to do to achieve the goal.

I need my team to put some pressure on me so I will get the jobs done.

Marvin Yeung

My expectations are simple.
I just want everyone to communicate and work hard to the best of their ability even if they cannot do something
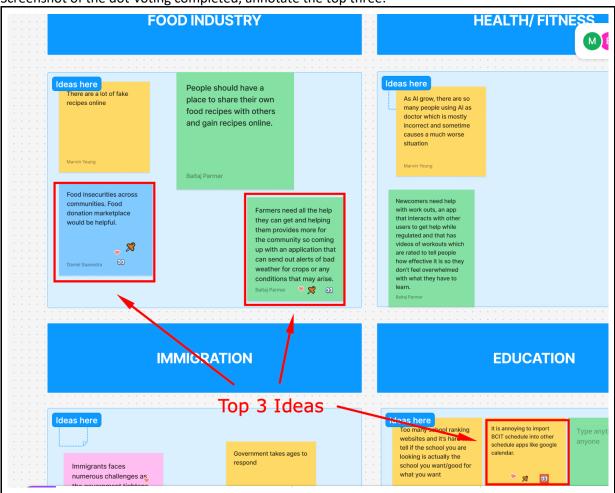

Baltaj Parmar

### 3. Brainstorming - dot voting
Provide a screenshot of your brainstorming session, specifically displaying the final dot-voting section from your FigJam board.

Screenshot of the dot-voting completed, annotate the top three:

### 4. Problem Definition
 Provide a screenshot of the problem definition matrix and attempt to explain your problem or idea in a few lines.

Screenshot of the matrix:

| | Problem 1 | Problem 2 | Problem 3 |
| --- | --- | --- | --- |
| | Food donation marketplace | Weather app for farmers | Schedule |
| **Feasibility and Viability:** How easy or difficult it is to tackle this problem; indicators can be time, resources, etc. | 3 | 2 | 4 |
| **Importance:** This is a measure of the urgency of finding the solution for the user | 4 | 3 | 2 |
| **Intrinsic Interest:** Problems are not equally attractive i.e., they do not inspire the same motivation. This dimension is thus assigning the degree to which this problem appears interesting to the subjects. | 4 | 3 | 2 |
| **Multiplicity of Solutions:** This dimension expresses the possibility of resolving the problem by various procedures or through various means. It is thus a matter of possible paths to the solution. | 1 | 2 | 5 |
| **Familiarity within the Group:** Individuals might have had a previous experience of the task in point, either direct, or by means of an analogous task. This dimension thus evaluates the relative skillfulness or the current state of knowledge of the group about this problem. | 2 | 2 | 4 |
| **Clarity of Purpose:** This denotes the degree of precision with which the requirements of the tasks are estimated, and how the members perceive the requirements. | 3 | 3 | 4 |
| **Scores** | 17 | 15 | 21 |

Winner

Briefly attempt to explain your problem/challenge/issue/idea:

It is taking too long to go to the BCIT website to check their schedule and if they are using other schedule apps like Google Calendar, it takes a long time to import it. We are thinking about making an app that exports the schedule, changes the format, and imports it to other schedule apps. The challenge should be asking the school for the API to get the data to transfer to Google Calendar, but we might try to figure out another solution.
